

Inspiration for our name, “Young Master” comes from Hong Kong’s past. When we first heard the coming of age tale of a “工廠少爺” or a playful “young master” of a factory, set in old Hong Kong, we felt an instant connection. We love that the name embodies both a playful spirit and a strong work ethic. We are located in Ap Lei Chau and Wong Chuk Hang, amidst many other creative endeavors of the South Island Cultural District in our vicinity. We see our brewery in this setting evoking memories of Hong Kong’s industrial past in a more creative form, albeit on a smaller scale.
